Subject: Nopiming and Manigotagan River Provincial Parks

Dear Stakeholder,

Manitoba Conservation and Water Stewardship is undertaking a management planning process for Nopiming and Manigotagan River Provincial Parks. Management plans provide long term direction and address concerns associated with parks. Current developments, concerns, management and patterns of use will inform and guide the preparation of the plans.

The planning process will be conducted over the course of the next two years. The process will include opportunities for the public to provide input to the future of Nopiming and Manigotagan River Provincial Parks. A contact list of individuals and stakeholders is being compiled. You have been identified as a stakeholder and will be notified directly of public drop-ins scheduled for the fall of 2014. Public drop-ins to gather general information and identify concerns are the first stage of this process. If you do not wish to receive this information, please email Morgan.Hallett@gov.mb.ca. You can also notify me of any changes of contact information or if you prefer to receive this information by mail. Please feel free to forward this information to anyone that you feel may be interested in participating in the management plan process. I have attached a print ready copy of this information to this email.

Background information has been posted on the Manitoba Parks website <http://www.gov.mb.ca/conservation/parks/consult/index.html>. If you wish to discuss the planning process or require any additional information, please contact me directly.

Yours truly,

Morgan Hallett
Parks Specialist - Eastern Region
